**Subject: Bisbee Old Divide Road**

Dear Ms. English,
Thanks for asking input on what to do with the **Old Divide Road** in Bisbee.

It seems there is a way forward that would satisfy two basic needs concerning this road.

First, Public Safety should be a priority so that if the road were repaired for "one lane, emergency vehicles only", then the safety issue would be taken care of. Realistically, people have no pressing need to use the Old Divide Road for regular business since the main highway is right near by.

Secondly, maybe the precedent set already by "Rails to Trails" movement, could be used here. That is, the Old Divide Road could be a non-motorized "community recreational and leisure use" road. This would put this old road to good use and provide a welcome addition to the opportunities in Bisbee to get out and enjoy the views, walk the dog and get fresh air.

Thanks for listening.

Charles Martinson
(San Jose), Bisbee
