Please attach this email to the agenda item. Most everything on the grant approval form is incorrect. Even the fund number is wrong. I will approve the item. Thanks.

Hi Lois,

MIECHV is Fund 220 and it is all Federal Funds. The CFDA is 92.351. There is no county match required. We set up the original budget in April in activity 5815 as state funds by mistake, and were planning to correct the budget when the numbers were finalized (typically we do this when the grant approval is obtained).

Hope this helps, and please let me know if you have any questions.
Thanks.

Jennifer,
I'm trying to approved this item. There is no CFDA NO. filled in, and you have not marked whether there is or is not a County match. Also, is this in addition to what you have already budgeted in Fund 245. The financial system shows $304,915, so it is unclear where the $90,000 comes into play on this agenda item. Will this be a new activity within Fund 245? Please respond by email to have the items I need in writing. I need these right away – Arlethe is waiting for me to approve or send back to you to move to another meeting. Thanks.
