Subject: Building Fee

Gentlemen,

We were informed that we may request a fee waiver for building permits due to the fact that we are a non-profit public school system.

Valley Union High School would like to request a building fee waiver for our upcoming softball dugout building project. The school is planning to build new softball dugouts on our property, we are just awaiting a final revision from the architect prior to submitting the plans to planning/zoning for review and approval. I understand that this request has to go before the county board of supervisors for approval and hereby am requesting that the fee waiver be put on the next available meeting, which I believe is November 19th. Also is it possible to grant the building permit prior to the meeting and based on the board of supervisor's decision and pay the fee afterwards if the request is denied? Thanks for assistance in this matter, it is greatly appreciated.

Respectfully,
Ron Aguallo
Superintendent of Valley Union High School District#22
