

Work Session Request Form

Specific Topic / Wording of Agenda Item: Review of Draft Public Scoping Comments on the San Pedro Riparian National Conservation Area (SPRNCA) Resource Management Plan and Environmental Impact Statement (RMP/EIS)

Justification / Executive Summary: The public scoping process identifies the issues for inclusion in the RMP/EIS. Final Public Scoping Comments are due to the BLM on September 27th. This meeting will give the Board of Supervisors an opportunity to review comments prepared by County staff and consultants, to provide clarification on those comments and suggest any additional comments they or staff would like to see included. Following the public scoping process, Issues Groups will be formed for each of the issues identified under that process, and alternatives for inclusion in the RMP/EIS will be developed from input from these Groups.

Proposed Outcome: The work session will result in direction to staff and consultants for finalization of the County's Public Scoping Comment on the SPRNCA RMP/EIS by the due date.
