Subject: RE: Initial Palominas monitoring data

Karen,

I can confirm that the remaining funds in the contract we have with you will be available starting January 1, 2015. I understand and approve of the next step identified as the Bella Vista phase I contract. For that contract we are prepared to release the \$140,000 after January 1, 2015 and upon acknowledgement that the contract has been approved by the County.

Morgan

You're welcome. Let me know if you'd like any other info regarding the data we're collecting.

Also, you were going to send me something in writing (email is fine) confirming that \$140,000 from the approximately \$400,000 left on the Palominas grant will be available in January 2015 for the Bella Vista Phase I contract. I need that this week in order to get the paperwork in for an October 14 Board meeting to approve the contract. Let me know if you have any questions.

Thank you,
Karen

Morgan,

Some of this is a little confusing, but it gives you a good idea of the data the project is gathering on a real time basis. After three months of data collection the first full analysis and report will be generated per the monitoring contract. It will have full descriptions of the data, trends, etc. That should be before your (hopeful) trip in January. It might be a good idea to have another phone conference then and have the consultant present the information.

Subject: Palominas data

Brooke,

Please find attached a short presentation on the Palominas monitoring.

I can call in if you have a number.

thanks,

mike
