### Protection/Unprotection of File:

Each spreadsheet within the file has been protected to prevent accidental deletion of formulas. When the sheet is protected you can move from one cell to the next using the Tab key. A password was not assigned, so the sheets may be unprotected to make minor formatting changes such as row height, column width, and font size. To unprotect an individual spreadsheet, select Protect/Unprotect Sheet from the menu.

You may need to add lines to Schedules C through G to accommodate all funds or departments involved. Remember to check all formulas in the subtotals and totals, to ensure that the additional lines are included, and make changes accordingly. Once changes have been made, the sheet should be re-protected by reversing the above process. Re-protecting the sheets will help ensure that formulas are not accidentally altered or deleted.

### Printing Tips:

Schedule A can be printed on one page in landscape format with the "fit to 1 page wide by 1 page tall" option (Page Setup) selected. Schedules B through F can be printed in portrait format. Schedule G can be printed in landscape format. Schedules with multiple pages are formatted to print with the column headings on each page.
